

people from farmworker families with services to help develop their academic, social, and safety skills. In Miami-Dade, 50 young people have received leadership training and FCAT tutoring and have participated in several community service activities.

One amazing young man, Jose Rodriguez, came to the program with a 1.2 grade point average and was behind credits for graduation. But the program helped Jose to improve his grades, receive a stipend for financial help, graduate on time; and he will soon begin to serve our country upon finishing the Marine Corps basic training on July 27.

I want to thank all of the dedicated workers of the Farmworker Youth Program for their unending devotion to these children.

CODE ADAM

(Mr. LAMPSON asked and was given permission to address the House for 1 minute.)

Mr. LAMPSON. Mr. Speaker, I will digress again from my stories about Ludwig Koons, whom we desperately want returned from Italy to the United States where he is being held illegally, to talk about one of the scariest situations that a parent can experience when they are out shopping, perhaps they turn around and their child is not with them. In many cases they return in a matter of moments, but sometimes it can seem like an eternity. What if that son or daughter cannot be found? Or do stores have a system in place that can help protect their child from harm?

The answer is yes. The gentleman from New Jersey (Mr. PALLONE) and I are joining together to urge Members to support a resolution to encourage retailers across the Nation to adopt a special child safety alert program known as Code Adam.

Code Adam works. Since 1994, it has been a powerful preventive tool against child abductions and lost children in more than 25,000 stores, making it the largest child safety program in the Nation. Code Adam is a special alert issued through the store's public address system when a customer reports a missing child. The measure was established in 1994 and named in the memory of 6-year-old Adam Walsh whose abduction from a Florida shopping mall and murder in 1981 brought the horror of child abduction to national attention.

We owe it to the kids of America to do everything that we can to ensure their safety. Join us in supporting this important resolution. Bring our children home.

COST OF GOVERNMENT DAY

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, June 29, this Saturday, will be Cost of Govern-

ment Day. What does that mean? It is the date on which the average American worker has earned enough gross income to pay off his or her share of tax and regulatory burdens imposed by all levels of government, either Federal, State or local. Currently Nevadans must work on average 179 days just to meet all the costs imposed by government.

There is some good news, however. Cost of Government Day falls 2 days earlier this year than last. In fact, this year it is earlier than it has been in 5 years, thanks to the tax relief we have just passed. Yet the cost of government is still substantially higher than it was during the 1980s when President Reagan led the Nation in bringing it down to a date in mid-June. Lowering the cost of government means more money in the hands of families, investors and entrepreneurs to reinvest in our economy.

Mr. Speaker, as we continue with the appropriations process, I call upon my colleagues to remain committed to reducing the cost of government to encourage economic growth and prosperity both at home and nationwide.

ECONOMIC REFORMS NEEDED

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute.)

Mr. DEFAZIO. Headline: "WorldCom Says Its Books Are Off By \$3.8 Billion." Hey, we all make mistakes. \$3.8 billion. The stock market is going to tank again today. The dollar is in a headlong decline. It seems like it would be a no-brainer for the House of Representatives to plug a few tax loopholes; mandate, mandate, by God, tough accounting reform; put a few of these crooked CEOs in jail, prosecute them, pursue them endlessly. Let us have real protection for stockholders, employees' pension funds. But no. It is needed, it seems like a no-brainer, but it ain't going to happen here because the House Republican leadership is too busy collecting campaign funds from some of the same firms and CEOs that are defrauding Americans and the stock market.

The American people need to focus and demand meaningful reforms before this disaster spirals totally out of control and drives the U.S. economy into a full blown financial crisis. No more sham reforms of pensions, no more sham prescription drug benefits, no more shams on the Tax Code. Let us do some meaningful work here and try and fix the problems with America's economy.

PARTIAL-BIRTH ABORTION BAN

(Mr. RYUN of Kansas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RYUN of Kansas. Mr. Speaker, I rise today to strongly urge my colleagues to support H.R. 4965, the par-

tial-birth abortion ban. Since 1995, a ban on this horrendous procedure has been passed three times by both the House and the Senate. Unfortunately, due to vetoes by President Clinton, the practice continues today. In the partial-birth abortion procedure, the baby is partially delivered before being brutally killed. The vast majority of partial-birth abortions are performed on healthy babies and healthy mothers. In fact, according to the American Medical Association, a partial-birth abortion is never necessary to protect the health of a woman and can even lead to additional serious health risks.

Although language banning this procedure has been struck down in the past by the Supreme Court, this new legislation has been tailored to address the Court's concerns.

Partial-birth abortion is infanticide. It is crucial that we act on the wishes of the American people and outlaw this dangerous and gruesome procedure once and for all.

PRESCRIPTION DRUGS

(Mr. GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GREEN of Texas. Mr. Speaker, seniors cannot wait a minute longer for a prescription drug benefit under Medicare. Our seniors have been in need for far too long. Unfortunately, they will be very disappointed with the plan that will be presented by the Republican majority either this week or after the Fourth of July break. With its high deductibles, fluctuating premiums and gaps in coverage, the Republican plan hardly provides any benefit at all.

But the biggest problem with their plan is that it relies on the insurance industry to work. Their plan is the first step in their long-term effort that they have been trying to do to privatize Medicare.

Let us face it. The insurance industry just does not work for seniors. As we have seen with the Medicare+Choice program, private health insurance companies cannot make a profit with the health care demands of our seniors. That is why Medicare was created in 1965. It is foolish to believe that private drug plans will be able to do any better.

We need to take profit out of the equation and create a prescription drug plan that is run by Medicare, just like hospital visits and doctors visits. It is time to stop wasting money on failed experiments and put the money where we know it will work, in a drug benefit under Medicare.

PARTIAL-BIRTH ABORTION

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, Congress now has an opportunity to put an end
